

## **MOU Re: In-Service Examinations, Register and Eligibility Ratings**

The U.S. Postal Service and the American Postal Workers Union, AFL-CIO, agree that on an annual basis (from March 1-31), **any career employee** may submit a written request to be tested for Maintenance Craft eligibility ratings for all occupational groups (excluding NST ET-11).

The testing process shall follow the current timelines. Once an employee receives eligibility ratings, the employee may then request placement, or reinstatement, on in-service registers.

In the event there is no in-service register, the employee's eligibility ratings shall become a part of their eOPF.

Management shall notify the employee of the results no later than sixty (60) days after the testing, provided that the applications have been properly completed.

On an annual basis on April 1, (beginning in calendar year 2023), all employee names from the preceding year's in-service registers shall be purged, with the following exception: any employee that is on an in-service register must submit a written request to the MSS Coordinator during the month of March to remain on the in-service registers.
